

English
for
Business
Professionals

The
Blue Penguin
Company

Introduction

When using English in your business, it is important to feel confident in your ability to speak proficiently when dealing with clients, colleagues or suppliers.

How we can help you

The Blue Penguin Company can help to achieve your English language goals by providing short and intensive English Courses in the UK.

These are tailored around your specific needs and wishes, ensuring that whilst you are learning, there is also time to 'check in' on your business when you need to.

A high-angle, close-up photograph of a man with dark hair and a beard, wearing glasses and a light blue button-down shirt. He is seated at a wooden desk, focused on writing in an open notebook with a black pen. The notebook is open to a page with some faint, illegible text. The background is softly blurred, showing a wooden surface. The overall lighting is warm and natural. In the bottom right corner, there is a decorative graphic consisting of a grid of white lines forming a series of triangles and squares.

“

What sets us apart from other Language providers is our established partnerships with collaborative businesses.

”

English can be learned in many different ways and at The Blue Penguin Company we only want to provide programmes that will be of benefit to you, so we listen carefully to what it is you want to achieve and what method of learning is most effective for you.

In addition to quality 'classroom based' English Language lessons, what sets us apart from other Language providers is our network of local businesses.

“

Beyond the improvement to my English Language, I will always carry something more precious with me after this experience. I met with so many kind and helpful people who welcomed me into their homes and companies as if I were one of them.

”

Alessandro Landucci, CEO
SDM Measuring Instruments

We are able to provide real-life opportunities to interact with industry professionals, giving our clients the chance to practice conversational English at a technical, and industry-specific level.

The best way for us to tell you what we do, is to share with you a recent client visit.

“

We listen to our clients carefully so that we can help them to achieve their learning goals.

”

Client brief

- A four-day intensive English Language course to include four Company visits to businesses in the manufacturing sector.
- To meet CEOs, Directors and other members of staff within these companies in order to improve our client's technical English vocabulary.
- A combination of a language programme as well as a cultural programme, enabling our client to see some of our beautiful region whilst practicing English.
